Name: _____

Intro to Pop Culture Collage

Point Value: 10 points

Over the next few days I want you to think about the ways your life is impacted by pop culture. In the media-saturated world that we live in, you are constantly exposed to pop culture. The purpose of this assignment is for *you* to think a little bit more carefully about what exactly pop culture is AND for *me* to learn a little about what parts of pop culture you find interesting.

What elements of American popular culture do you CHOOSE to consume on a daily basis?

What aspects of American pop culture MEAN SOMETHING to you? What pop culture do you ENJOY?

Your task: Design a collage that represents your pop culture interests. Your collage should be a good representation of the things you like to do, consume and discuss. Your collage can be a combination of pictures and words and it can be made digitally with Google Draw or made by hand on a piece of printer paper.

It should NOT be: messy, thrown together in 5 minutes, handwritten (although if you have nice handwriting and/or can really draw, you may choose to handwrite or draw some pieces of it)

It SHOULD be: colorful, representative of your interests, neat, thoughtfully assembled
