Name: _____

Intro to Sport Collage

Point Value: 10 points

Over the next few days, I want you to think about the ways your life is shaped by sports. The purpose of this assignment is for *you* to think a little bit more carefully about how sports have impacted your life, whether it's as an athlete or fan AND in doing so, to tell *me* a little about your interest & connection to sports.

What aspects of sports culture are important to you?

What sports do you participate in?

What sports, teams, athletes do you follow? (think local, college, national, or international)

What sportswear brands are you a consumer of?

Who are your sources for sports reporting and information?

Your task: Design a collage that represents your sports interests. Your collage should be a good representation of the sports you like to play, consume, represent and discuss. Your collage can be a combination of pictures and words and it can be made digitally with Google Draw or made by hand on a piece of printer paper.

It should NOT be: messy, thrown together in 5 minutes, handwritten (although if you have nice handwriting and/or can really draw, you may choose to handwrite or draw some pieces of it.)

It SHOULD be: colorful, representative of your interests, neat, thoughtfully assembled.
