

Research Paper – Central Question/Thesis

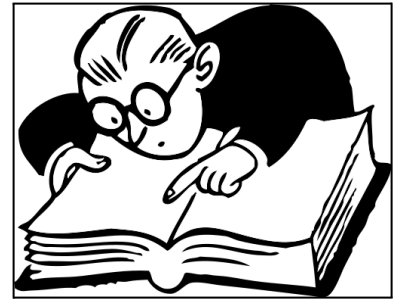

What is your central question?

What is your proposed thesis statement?

(Keep in mind, this will most likely change as you continue researching.)

The next step in the process is to continue your research. Read, take notes, read some more, and as you read, adjust your thesis statement as needed.

It's up to you to consider what information you need to be able to answer this question. You need to think critically about what you are reading/finding and if you aren't finding the information you need, look elsewhere or adjust your central question/thesis.

What research/inquiry questions do you think you will need to be able to answer in order to write this paper? Please generate a list below of 5-10 questions to guide you in your next phase of research.
